ATN continues to be the gold standard for hunting technology, providing an unmatched range of interconnected devices. We are always excited to see how our customers craft innovative and sophisticated setups with our products!

Our Ambassador Janell Whitelight with his Thor 4 thermal scope, OTS LT scanner, and X-Sound hearing protector.

How many ATN devices do you folks have?

After mastering the art of squirrel hunting, these kids have graduated to a bigger—and featherier—game! 🦉

Armed with a X-Sight 4K Pro digital rifle scope, they're on their way to becoming pigeon-hunting prodigies.

Watch the shooting video footage in the next post:

On this Memorial Day, we pause to reflect and pay tribute to the courageous men and women who made the ultimate sacrifice for our freedom. Their selflessness and unwavering dedication serve as a reminder that our liberty comes at a high cost. Today, we honor their memory and express our profound gratitude for their sacrifice.
